

GERBER

Sportsmen's Knives

Since Gerber was founded in 1939 by my father, there have been enormous changes in knife making. (Many of them pioneered by our company!) Our very first knives were made from old hacksaw blades, the aluminum handles cast from cylinder heads of automobile engines. In those early days, the Gerber line consisted of just one carving knife. Then several carving knives. And eventually a steak knife.

After World War II, we began working with American steel companies to develop a special grade of high speed tool steel specifically for our knives. And of course, the old cylinder heads gave way to new metals required for our improved casting methods. We perfected elegant, yet practical plating for aluminum handles using sterling silver, chrome, zinc and nickel — And moved forward from conventional die casting to state-of-the-art metal technology, which produces extremely accurate parts, time after time. The days of shearing and stamping have been replaced with fine blank stamping, which makes infinitely superior, more accurate components required for Gerber folding knives. We have arrived at the threshold of the 21st century. And Gerber leads the industry.

Such a reputation is no accident. I'll never forget my father telling me, "There's always someone who will make it cheaper and sell it for less. But they probably won't be around tomorrow!" For 44 years, the Gerber philosophy has been to produce the very best knife possible, and to price it fairly. Give the customer a good value for his money and a knife that serves him well. This attention to quality and integrity is why *we're* still around today! And enjoying the enviable position as the most innovative knife company in existence.

Yes, I'm darn proud of the Gerber name. And of the conscientious people in our organization whose individual pride in workmanship shines through in every product. Gerber quality. That, my friends, is really what our legend's all about!

Pete Gerber

Personalized Engraving and Etching

The only way to improve upon a Gerber product and make it more meaningful is by personalizing it with initials, name, logo or personal inscription. Anyone who receives a gift of a personalized Gerber product is quick to appreciate it.

Engraving and etching of handles and blades as well as personalized plates for walnut chest are available upon request from Gerber at a nominal charge.

Personalization Merchandiser (#8501): This in-store point-of-purchase display includes our most popular selling knives, most often chosen for personalization.

Standard Engraving: Includes initials, names or inscriptions from standard type styles. We engrave directly into the knife handle, or into brass or anodized aluminum plates, which are then affixed to any of our walnut chests.

Custom Engraving and Etching: (Available only on special quantities and costs will be quoted upon request) Given some lead time, Gerber craftsmen can custom engrave or electro-etch company logos, insignias or any other design on any Gerber knife.

Engraving styles:

Single Line Script — Names, dates, for graceful effect

Double Line Century — Names, dates, inscriptions

DOUBLE LINE CENTURY CAPITALS — Names or initials

TRIPLE LINE ROMAN — Names or initials

Old English Condensed — Names or initials

Gerber Sportsmen's Knives

For years, Gerber has pioneered the development of cutlery for outdoor and home use.

Our standard of quality stresses the use of only the finest materials. An unwavering commitment to excellence in craftsmanship and the collaboration with such exceptional designers as Blackie Collins, Paul Poehlmann, and Bob Loveless. Gerber stands apart in the development of new superior products.

The Gerber Sportsmen's Line continues this tradition. As you look through this catalog, you'll find many exciting product designs and innovations. Like the new lightweight LST™ and Bolt Action knives with black checkered handles. The Paul Knife with scrimshawed onlay, a Silver Knight™ with natural staghorn inlays, blackened Skeleton Knives, Exchangable Blade folding lockback. And a new revolutionary sharpening tool, the SharPak™. (patent pending)

Last year we introduced the Touche® Belt Buckle Knife. This unique product is now available in four buckle styles, including a Slimline model for narrower belts. 6 new Touche® scrimshawed onlays have been added.

You'll find something different in survival knives, with the optional blackened blades and the ingenious Frisco Shiv™ System. (patent pending)

Add these to our already outstanding selection and you'll see why Gerber continues as the innovative leader in the industry with products that are proven sales getters.

The LST Folding Knife

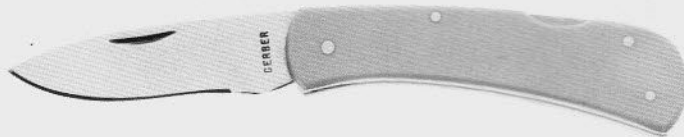

The best pocket knife you'll ever own, the "LST" stands for light, smooth, and tough. Easily personalized with name or initials, the knife incorporates the best design features of our popular Lockback Folding Sportsman I and Classic Knife, with these added benefits:

Light, because the entire knife weighs only 1½ ounces.

Smooth, thanks to oil-impregnated brass bushings that allow the blade to rotate easily.

Tough, due to handles of Micarta and Rynite, plus Gerber high carbon surgical stainless steel blades, hardened to a Rockwell C57-59.

The LST, a light, rugged knife. An outstanding companion for hunting, fishing, camping, boating and all outdoor activities, especially backpacking.

LST Classic with Ivory Micarta Handle (#6006)
2⅝" drop-point blade.
Length open, 6⅞"; closed 3½". Blade thickness, .100".
Weight 1½ ounces.

LST Classic with Black Micarta Handle (#6008)
2⅝" drop-point blade.
Length open, 6⅞"; closed 3½". Blade thickness, .100".
Weight 1½ ounces.

New Checkered LST (#6009) A black checkered, virtually indestructible Rynite-handled knife designed by Blackie Collins. Same dimensions as LST classic.

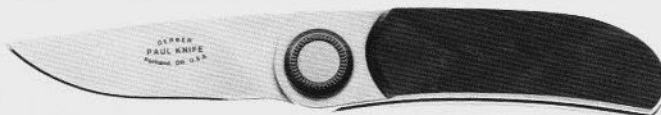

The Paul Knife Patent #394229

A legend in precision. Designed by aerospace engineer Paul Poehlmann, it's unlike anything you've ever seen or handled. A folding knife built like a fine watch, beyond the craftsmanship of conventional knife making. Components are high carbon, hardened, surgical stainless steel. Our patented axial locking mechanism allows opening and closing without even touching the blade.

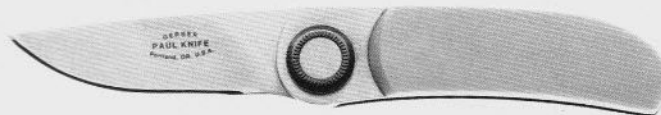

Model 2P Stainless Steel: (#8001)

2½" drop-point blade. Brushed stainless steel handle is easily personalized. Length open, 6"; closed, 3½". Blade thickness, .115".

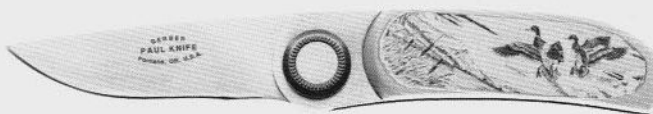

Deluxe Model 2PW: (#8006)

Onlays of rare hardwood. 2½" drop-point blade. Length open, 6"; closed, 3½". Blade thickness, .115".

Deluxe Model 2PM: (#8011)

Ivory colored onlays. 2½" drop-point blade. Length open, 6"; closed, 3½". Blade thickness, .115".

New Deluxe Model 2 PMS: (#8009)

Ivory colored onlay with scrimshaw wildlife scenes on both sides. 2½" drop-point blade. Length open, 6"; closed 3½". Blade thickness, .115".

Bolt Action™ Unique Positive Locking System patent pending

This knife design by Blackie Collins is virtually indestructible. And the latest generation in a locking blade-folding knife. At only 3 ounces, it's extremely lightweight. The blade of Gerber high carbon surgical stainless steel with specially developed concave grind, pivots on brass bushings, locks solidly into place with a bolt action thumb release, allowing closing of the knife with one hand.

Bolt Action™ Folding Knife Ivory Rynite

Handle: (#7008) 3¼" drop-point blade. Length open, 7½"; closed, 4¼". Weight 3 ounces. Blade Thickness, .125".

New Bolt Action™ Folding Knife Black Checkered

Handle: (#7010) 3¼" drop-point blade. Length open, 7½"; closed 4¼". Weight 3 ounces. Blade Thickness, .125".

Bolt Action Scabbard

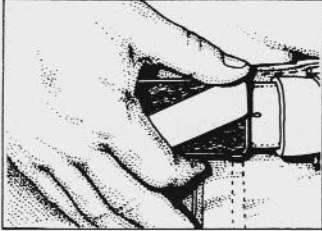

A light, long lasting nylon scabbard is standard. *Optional:* A handsome scabbard of top grain leather.

Leather Scabbard for the Paul Knife is available as an optional accessory. (Suede leather pouch is standard.)

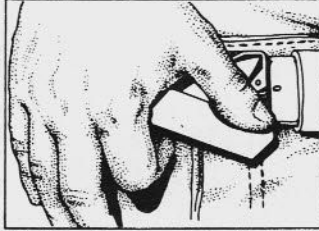

The Touché® Belt Buckle Knife *Patent Pending*

Easily the most successful and unusual knife innovation in recent history! A handsome belt buckle that also happens to be a practical knife, handy enough for all kinds of everyday cutting jobs. Designed exclusively for Gerber by the legendary Blackie Collins.

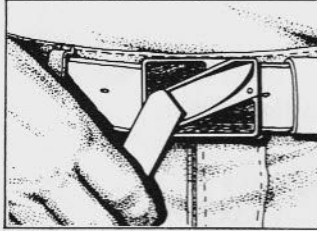

The cross-piece rotates downward, becoming the handle of a rugged knife which lifts out of the buckle. (Belt not included.) Base of the buckle is made of Dupont Rynite®, an incredibly tough synthetic material, or brass, for an exceptionally handsome buckle. Blades are of Gerber high carbon surgical stainless steel. Blade length 1 $\frac{7}{8}$ "; overall length 4 $\frac{7}{8}$ ". Blade thickness, .100".

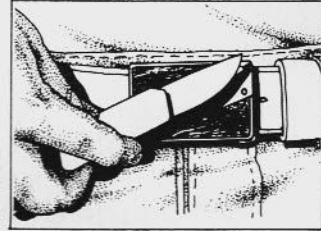

1. The Gerber Touché™ starts out quietly enough as a distinctive belt buckle.

2. Your thumb unlocks the diagonal cross-piece, rotating it downward.

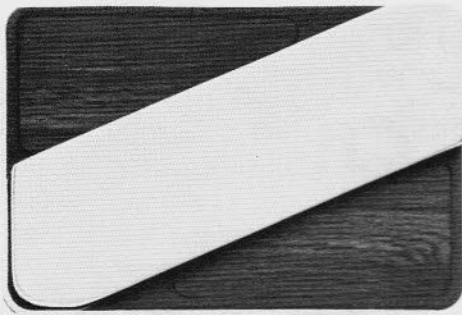

3. It then becomes the handle of a small knife that lifts right out of the buckle.

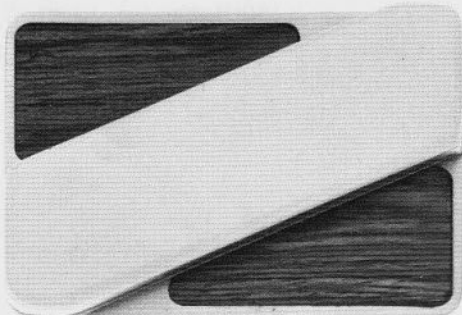

4. To return the knife insert handle into buckle and reverse the process.

Four Buckle Styles:

Available with stainless steel handled knife ideal for personalizing with engraved initials, name or inscription.

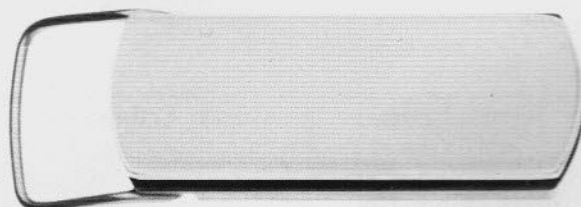

Rynite Belt Buckle (#7201): with wood inlay and stainless steel knife handle.

Brass Belt Buckle (#7267): with wood inlay and stainless steel knife handle.

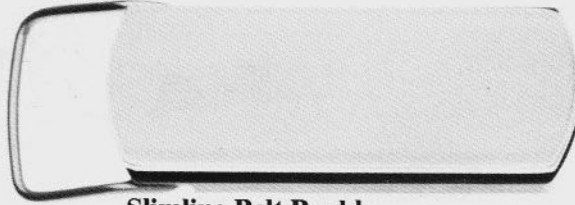

Ebony Rynite Belt Buckle (#7101): with stainless steel knife handle.

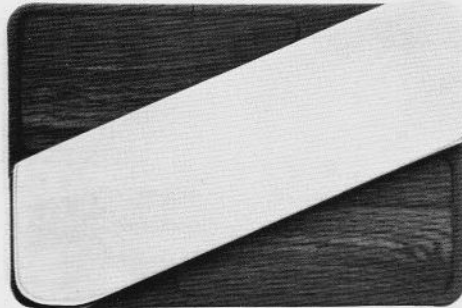

Slimline Belt Buckle (#7321): with stainless steel knife handle.

Three Buckle Styles:

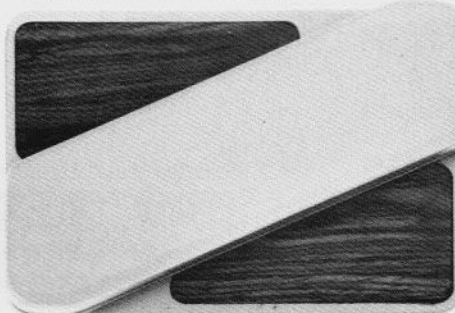

Available with either plain ivory colored
crystalline knife handle onlay... or
choose from six outstanding scrimshaw
patterned onlays, reproduced from
originals by world renowned Jim Blair.

Slimline Belt Buckle
(#7322): with plain colored
onlay.

Rynite Belt Buckle
(#7236): with wood inlay
and plain colored onlay.

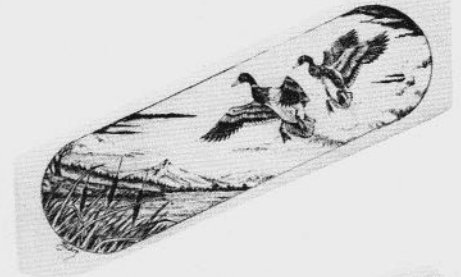

Brass Belt Buckle (#7262):
with wood inlay and plain
colored onlay.

Ebony Folding Hunters

Quietly stunning design and remarkably comfortable feel. The Ebony Folding Hunters from Gerber International sport stainless steel frames with darkly elegant, solid Macassar ebony handles. The blades are of high carbon surgical stainless steel. Leather scabbard included.

Ebony Folding Hunter I: (#10006)

Single 2½" blade with positive lock. Length open, 6"; closed 3½". Blade thickness, .100".

Ebony Folding Hunter II: (#10007)

Single 2¾" blade with positive lock. Length open, 6¾"; closed, 4". Blade thickness, .120".

Ebony Folding Hunter III: (#10008)

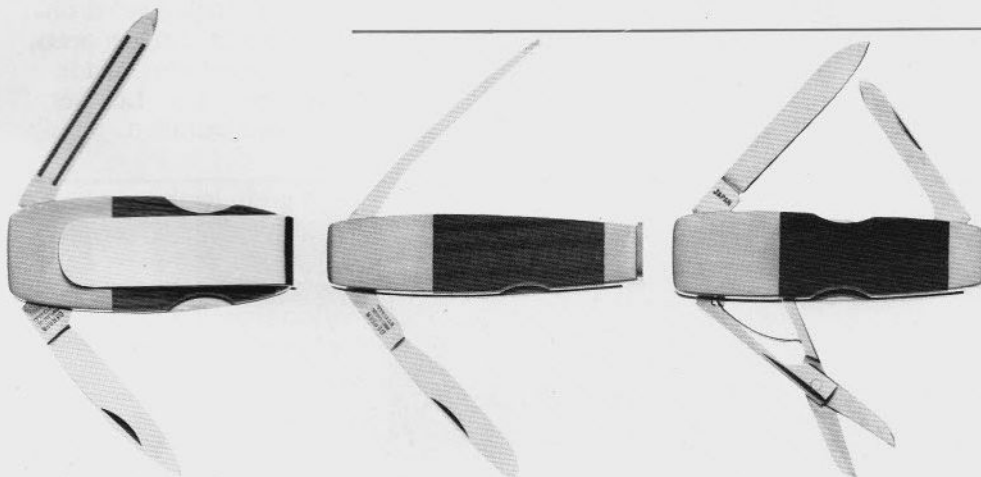

Single 3½" blade with positive lock. Length open, 8¼"; closed, 4¾". Blade thickness, .120".

Handcrafted leather scabbard for Ebony Folding Hunters.

Escort® Knives

Nickel silver handles with elegant Cordia wood inlays. The *Escort® Money Clip* has stainless steel pen knife blade and handy nail file. The *Escort® Gentlemen's Pocket Knife* is equipped with small but very functional scissors, in addition to stainless steel pen knife and nail file. The *Escort® Smoker's Knife* has round tip blade for scraping one's pipe bowl, a stainless steel reamer and flat, rounded tamp at base of handle. All three easily personalized with initials, name, logo, etc.

Escort® Money Clip Knife: (#10000)

With nail file and 2¼" knife blade. Length open, 4⅞"; closed, 2⅝".

Escort® Smoker's Knife: (#10002)

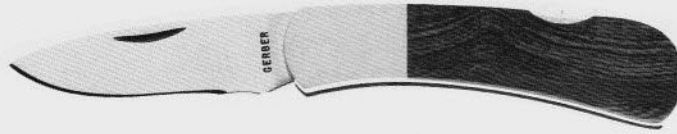

With reamer and 2¼" round tip blade. Length open 5⅞"; closed, 2⅞".

Escort® Gentlemen's Pocket Knife: (#10003)

With nail file, scissors and 2¼" knife blade. Length open, 5⅞"; closed 2⅞".

Folding Sportsmen's Knives

Gerber's brass folders, setting a standard of quality worldwide, are better finished, sharper, and stay that way longer. Each blade locks open with authority and is made with Gerber high carbon surgical stainless steel to a Rockwell C57-59. The assortment includes four Folding Sportsmen's knives, plus the Classic Folder, and the Magnum Folding Hunter.

The Classic: (#6001) Single 2 $\frac{3}{8}$ " drop-point blade. Length open, 6 $\frac{1}{8}$ "; closed, 3 $\frac{1}{2}$ ". Blade thickness, .100". Scabbard optional.

Folding Sportsman I: (#6101) Single 2 $\frac{3}{8}$ " drop-point blade. Length open, 6 $\frac{1}{8}$ "; closed, 3 $\frac{1}{2}$ ". Blade thickness, .100". Scabbard optional.

Folding Sportsman II: (#6201) Single 3 $\frac{1}{2}$ " trailing-point blade. Length open, 8"; closed, 4 $\frac{1}{2}$ ". Blade thickness, .100". Scabbard optional.

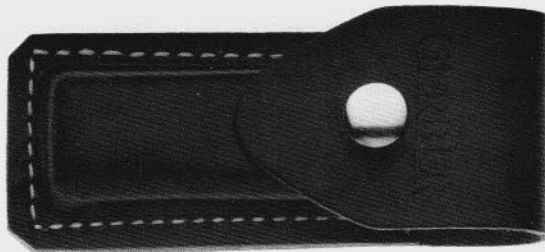

Folding Sportsman IIId: (#6301) Single 3 $\frac{1}{2}$ " drop-point blade. Length open, 8"; closed, 4 $\frac{1}{2}$ ". Blade thickness, .100". Scabbard optional.

Folding Sportsman III: (#6406) Single 4" trailing-point blade. Length open, 9 $\frac{1}{4}$ "; closed, 5 $\frac{1}{4}$ ". Blade thickness, .125". Leather scabbard included.

Magnum Folding Hunter: (#6506) Single 3 $\frac{1}{4}$ " drop-point blade. Length open, 7 $\frac{3}{4}$ "; closed 4 $\frac{1}{2}$ ". Blade thickness, .125". Leather scabbard included.

Top grain leather scabbard heat-molded for good looks and shape retention, hand sewn with bonded nylon thread. Optional lightweight cordura nylon scabbards available for some models.

Folding Sportsman II Vascowear Blade

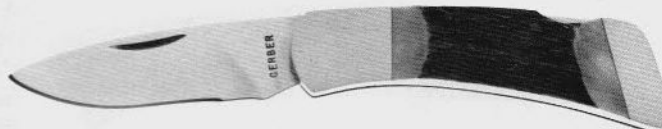

Until now, the Vascowear blade has been the product of only a few top custom knife makers. It's special high speed tool steel is famed for holding an edge longer than any steel we know! Gerber has hardened it to an exceptional Rockwell C59-61. Brass handle has distinctive black Micarta inlay. Each blade identified with V-steel stamp.

FSIIV-steel: (#6236)
Single 3 1/2" trailing-point blade with positive lock. Length open, 8"; closed, 4 1/2". Blade thickness, .100". Includes leather scabbard.

Stag Folding Hunters

Once again, blades are Gerber high carbon surgical quality stainless steel. Handles crafted from solid brass, with a distinctive extra touch — rare natural Sambar staghorn from India, providing a non-slip surface and making every knife an original.

Folding Sportsman I Stag: (#6116)
Single 2 5/8" drop-point blade. Length open, 6 1/8"; closed, 3 1/2". Blade thickness, .100". Leather scabbard included.

Folding Sportsman II Stag: (#6216)
Single 3 1/2" trailing-point blade. Length open, 8"; closed, 4 1/2". Blade thickness, .100". Leather scabbard included.

SharPak™ Knife Sharpener (patent pending)

Gerber's latest innovation is designed for *easy* knife sharpening. The SharPak™, designed by Blackie Collins, is a self-contained, lightweight sharpener which takes all the guess work out of sharpening a knife at the right angle.

SharPak™ Model C (#9833): Comes with a unique white "Crock-stick" type ceramic sharpener. It's harder than all metals, harder than most man-made materials, harder than all naturally occurring substances except diamond. The grooved sharpening surface is ideal for touch-up sharpening.

SharPak™ Model CD (#9834): Features an additional diamond sharpening surface, a Gerber exclusive from 3M, which is affixed to the back of the ceramic sharpener. This combination sharpening unit is interchangeable in the SharPak and gives the user the ultimate sharpening device. The best diamond sharpener we've seen!

Model C (#9833)

Sharpening Surface: 7/8" x 3 1/2". Overall Length: Open, 8"; Closed, 4 1/2".

Model CD (#9834)

Diamond Sharpener (#9835) (not shown)

The same fantastic diamond sharpening surface (1" x 3" approx.) as on SharPak Model CD but affixed to an easy to use one piece wood handle.

Gerber Hunting Knives

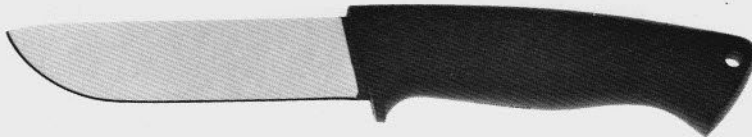

Gerber has made these seven knives, used by professionals worldwide, to endure under severe conditions in the field. The blades, made of exceedingly hard M-2 high speed tool steel, take a sharp edge and hold it. Hardened to a Rockwell C60-62, they are hard enough to cut other steels. The solid aluminum handles are cast directly on notched tang and coated with special textured coating for a firm slip-proof grip.

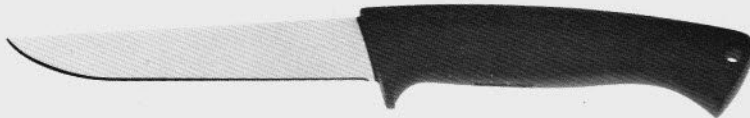

A-325: (#5201)
3 1/4" game and fish blade, ideal for cleaning smaller catches. Length, 7 1/2". Blade thickness, .062". Scabbard included.

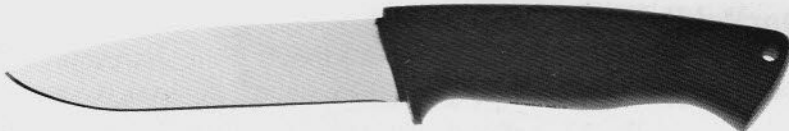

A-400: (#5206)
4" drop-point blade, for all purpose hunting, fishing. Length, 8 1/2". Blade thickness, .088". Scabbard included.

A-425: (#5211)
4 1/4" utility skinning blade. Perfect for camping and field dressing. Length, 8 7/8". Blade thickness, .100". Scabbard included.

A-450: (#5216)
4 1/2" general utility blade. Length, 9". Blade thickness, .088". Scabbard included.

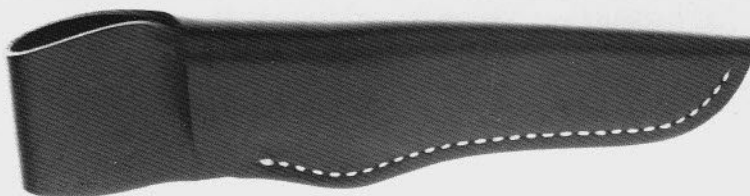

A-475: (#5221)
4 3/4" drop-point blade, designed for large game. Length, 9 3/8". Blade thickness, .100". Scabbard included.

The Shorty: (#5531)
4 1/2" trailing-point blade. Length, 9 1/4". Blade thickness, .088". Scabbard included.

The Mini-Magnum: (#5546)
4" trailing-point blade. Length, 8 1/4". Blade thickness, .062". Scabbard included.

A hand-fitted leather belt scabbard made in Gerber's own leather shop is standard with all hunting and fishing knives.

Gerber Fishing & Hunting Knives

Four exceptional knives. Blades are made of Gerber high carbon surgical stainless steel that resists stains and moisture, even saltwater. Gerber's textured coating is fused onto the aluminum alloy handle for a firm, slip-proof grip. Handles cast directly on notched tang for a rivetless, permanent bond.

Pixie: (#5516)
3" straight-back blade for cleaning small game and fish. Length, 7". Blade thickness, .050". Scabbard included.

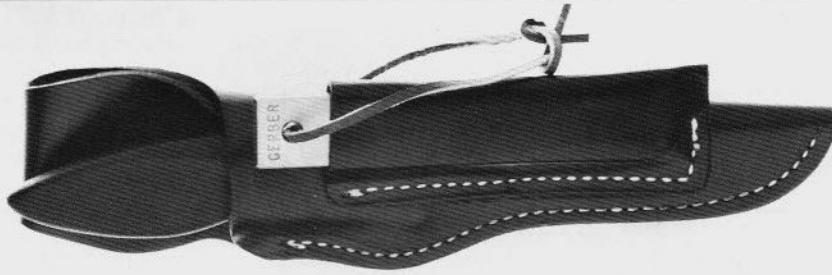

Trout & Bird: (#5501)
3¼" blade with special sharpened tip and a stripping spoon handle. Length, 8". Blade thickness, .050". Scabbard included.

Muskie: (#5511)
6" blade ideal for boning and filleting any size fish. Length, 11¼". Blade thickness, .080". Scabbard included.

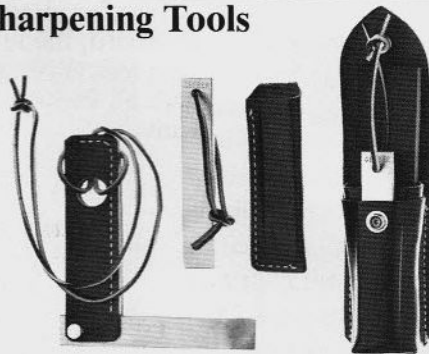

Coho: (#5506)
6" blade with stripping spoon. Length, 11¼". Blade thickness, .080". Scabbard included.

(#5556)

Combination Sets
Hunting knives in some really handy piggyback scabbard combinations:
Shorty with Pixie (#5536)
Shorty with 5" Sportsman's Steel: (#5541)
Mini-Magnum with Pixie: (#5551)
Mini-Magnum with 5" Sportsman's Steel: (#5556)

Gerber Sharpening Tools

(See page 9 for new SharPak™ Knife Sharpener)

The Sportsman's Steel: steel and chromium carbide fused into a tool so hard, it can sharpen virtually any cutting instrument. Special hardened chisel tip for prying and splitting. A Gerber exclusive.

5" Sportsman's Steel: (#9816) 8" steel (#9806): With conventional belt scabbard and tie thong.
5" Sportsman's Handled Steel: (#9811) 8" steel (#9801): With leather handle/storage pouch. Steel folds out to 270°

for safe, easy use.
Field Sharpening Kit: (#9821) A complete sharpening set, with 5" Sportsman's Steel, whetstone, and leather scabbard.
Sharpening Oil: (#9831) 4 fluid ounces of highly refined mineral oil.

Presentation Series Outdoor Knives

These, we believe, are the finest outdoor knives that technology and the human hand can produce. They are as close to a custom handmade knife as you can achieve from production!

There are five blade styles made from Gerber high carbon surgical stainless steel, hardened to a Rockwell C57-59. Each blade comes with a choice of two handle materials — wood or Cushiongrip™.

Wood handles are hand-carved from solid, uniquely grained South American hardwood, for a comfortable, controlled grip, each with a one-of-a-kind look.

Cushiongrip™, made from Dupont Hypalon®, is an exceptional handle. This synthetic rubber material grips firm and won't slip in any weather condition, wet or cold. It is without a doubt, the most comfortable handle a knife can have.

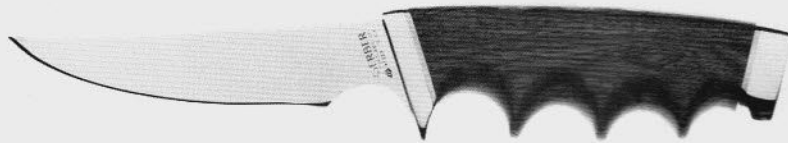

With a grip you'll have to squeeze to believe!

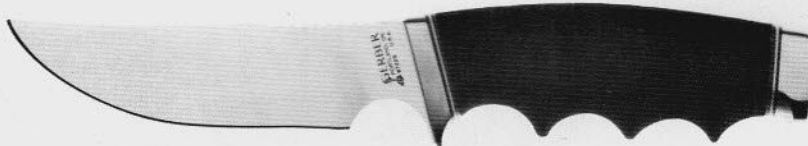

400S, (#5001) wood shown. 400CG, (#5026) Cushiongrip™. 4" skinning blade. Length, 9". Blade thickness, .156". Scabbard included.

425CG, (#5031) Cushiongrip™ shown. 425S, (#5006) wood. 4 1/4" hunting/camping blade. Length, 9 1/4". Blade thickness, .156". Scabbard included.

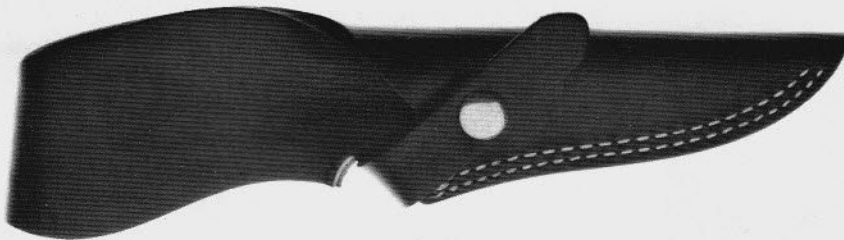

450S, (#5011) wood shown. 450CG, (#5036) Cushiongrip™. 4 1/2" fish and game blade. Length 9 1/2". Blade thickness, .156". Scabbard included.

475CG, (#5041) Cushiongrip™ shown. 475S, (#5016) wood. 4 3/4" big game blade. Length, 9 3/4". Blade thickness, .187".

525S, (#5021) wood shown. 525CG, (#5046) Cushiongrip™. 5 1/4" H.D. Hunting Blade. Length, 10 1/2". Blade thickness, .187".

A hand-crafted leather belt scabbard, made in Gerber's own leather shop, included with all Presentation Series Knives.

Gerber Survival Knives

"A number of knives were available on a private basis for combatants in Vietnam. But one of the few knives specifically designed for the fighting in Vietnam and introduced in this war was the Gerber Mark II. . . It quickly became popular with men of all branches of the service." Robert A. Buerlein

President of The American Historical Foundation

A different breed of knife created out of a special need in the 60's the Gerber survival knife has been designed by professionals. The result is the ultimate all purpose survival tool that will survive the test.

Today Gerber offers an outstanding collection of finely crafted survival style knives. All have blades of Gerber's high carbon surgical stainless steel and come with their own unique scabbard. Selection ranges from the original Mark II to this years newest introduction, the Frisco Shiv.TM

Frisco Shiv System: Our newest addition to survival, designed by Blackie Collins. The most unique features of the "system" are the locking scabbard, clip and blade handle. Whether you're looking for a hunting or survival knife, simply select the *system* most appealing to you.

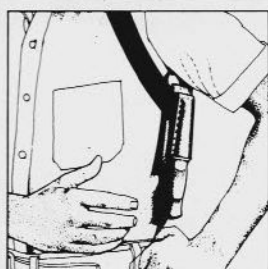

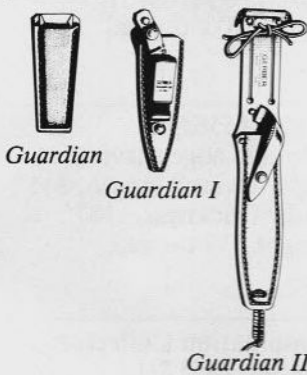

The Guardian: A 3½ ounce, double-edged legend. Comfortable finger recesses on both sides of the textured aluminum handle. Includes a top-grain leather scabbard with spring release, backed with special metal belt/boot clip. Available with optional harness package.

Guardian I and II: At a mere 4 ounces, the Guardian I with 4¾" double-edged blade, includes leather belt/boot scabbard with quick-release thumb snap. Available with optional harness package. A man-sized survival knife, the Guardian II is 11¾" in overall length. Weight (8 oz) is so well-balanced, you have a sense of 100% control. Includes a leather scabbard with leg tie thongs.

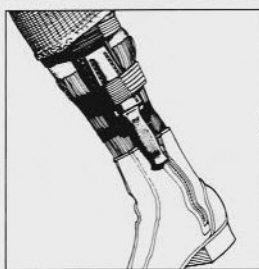

Mark I and II: Originated by Gerber. Copied but never equalled. Extra thick double-edged blades for superior strength and durability. The blade of the Mark II has serrated edges near the hilt for heavy cutting.

Command I and II: A design concept similar to the Mark I and Mark II, but with a contoured serration on the false edge of the blade, engineered for heavy cutting. On the non-sharpened back of the blade, a flat surface for pounding or hammering. Knives that stand up to the worst conditions on earth.

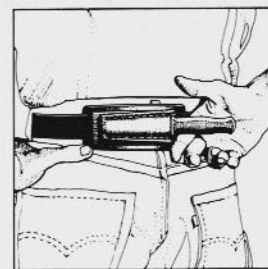

All Black Survival: Guardian, Guardian I and II, Mark I and II, and Command I and II are now available with blackened blades.

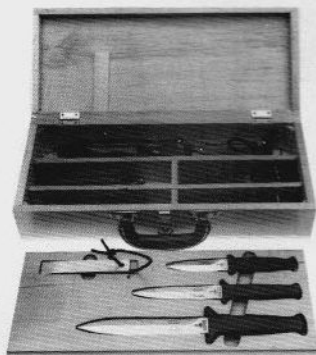

The Guardian's shoulder harness for under-the-arm wear: a part of the optional harness package.

Another part of the optional package: the Guardian's leg harness.

The leather platform lets you wear the Guardian comfortably, and inconspicuously on your belt.

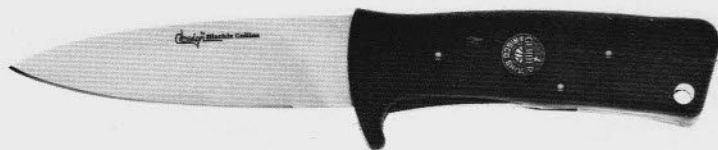

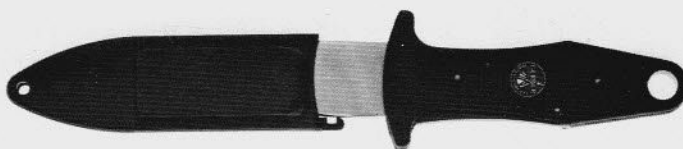

The Harness Package: The optional harness package available only for the Guardian, Guardian I, Mark I, and Command I, includes a leather scabbard similar to the one that comes standard with the Guardian. Both scabbards have a spring-loaded locking device that keeps the knife securely in place until it's needed. But the scabbard that comes with the harness package has one important difference. Instead of a metal clip, there's a velcro type adhesive that allows you to attach the scabbard to other parts of the harness assembly.

Complete Guardian Kit: Standard (#5898), Deluxe w/Loveless signature (#5899) Comes complete in its own special wood box. It contains the Guardian, Guardian I and II, with sharpening steel and Guardian Harness assemblies.

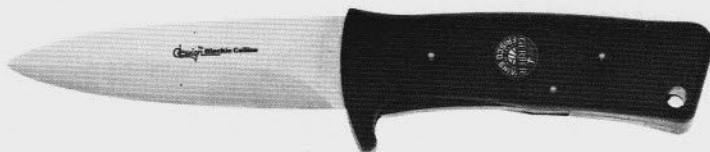

Frisco Shiv System™ (patent pending)

A tough hunting/survival knife with style! Designed by Blackie Collins, the Frisco Shiv is no ordinary knife. Inspired by the original handmade Frisco Shiv—Blackie's most popular custom knife ever.

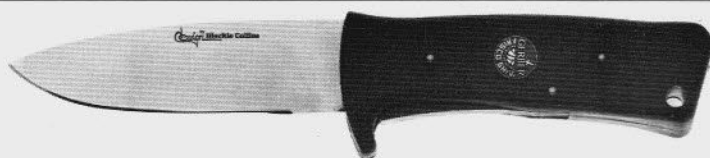

The Gerber Frisco Shiv System consists of five models, offering three different Gerber high carbon stainless steel blades and two handle styles. Each model features the same locking scabbard and integral retention mechanism that allows the knife to be carried in any position. Scabbard has belt/boot clip.

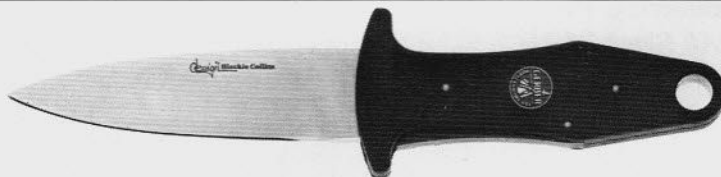

M-11: (#5561)
4" Single edge survival blade. Overall length, 8½".
Blade Thickness, .187".
Weight, 6 ounces.

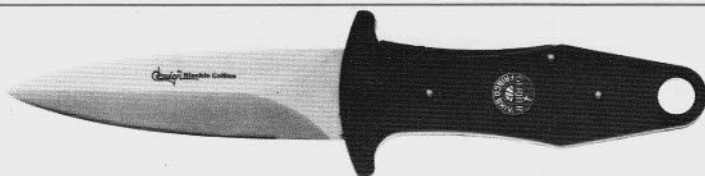

M-12: (#5562)
4" double edge survival blade. Overall length, 8½".
Blade Thickness, .187".
Weight, 6 ounces.

M-13: (#5563)
4" Single edge drop-point skinning and hunting blade. Overall length, 8½".
Blade Thickness, .187".
Weight, 6 ounces.

M-21: (#5564)
4" Single edge survival blade. Overall length, 8½".
Blade Thickness, .187".
Weight, 5¼ ounces.

M-22: (#5565)
4" double edge survival blade. Overall length, 8½".
Blade Thickness, .187".
Weight 5¼ ounces.

Combination Collector Gift Set: (#5571)
Includes one each M-13 and M-22.

Survival Knives

All come with blades of Gerber surgical stainless steel. Every handle is high-tensile cast aluminum, electrostatically coated with an epoxy finish that wears like iron, with a grip that is virtually slip proof. Optional blacked blades are available on all survival knives.

As the manufacturer of survival knives, Gerber Legendary Blades does not assume responsibility for compliance with federal, state or local laws related to ownership or carrying of concealed weapons. Please check the applicable regulations in your area.

Staghorn Handles

Special treatment of selected Gerber knives. These showpieces are so outstanding we must feature them on their own.

Handles are beautifully handcrafted of rare, natural Sambar staghorn from India, making every knife a one-of-a-kind original.

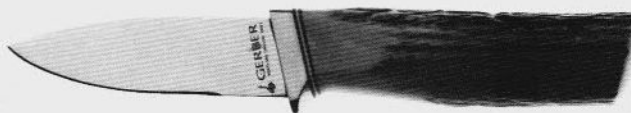

Mark I Stag: (#5620)
Brass guard and buttcap with polished surgical stainless steel blade. Scabbard included.

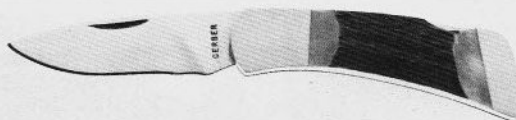

Mark II Stag: (#5720)
Brass guard and buttcap with polished surgical stainless steel blade. Scabbard included.

Custom 300B Stag: (#5106)
3" semi-drop-point blade of high speed tool steel. Scabbard included.

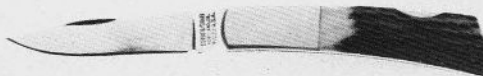

Custom 325 Stag: (#5111)
3 1/4" drop-point blade of high speed tool steel. Scabbard included.

Folding Sportsman I Stag: (#6116)
2 7/8" drop-point blade with lockback.

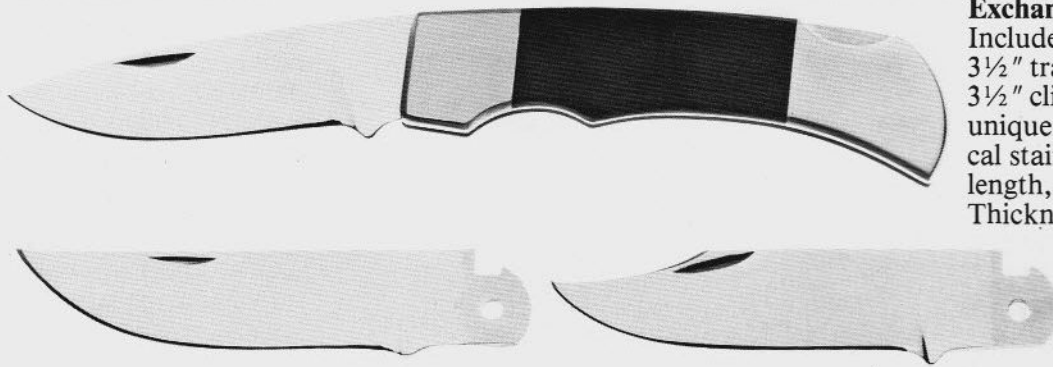

Folding Sportsman II Stag: (#6216)
3 1/2" trailing-point blade with lockback.

Silver Knight 250A Stag: (#7609)
2 1/2" drop-point blade with positive lock.

Exchange Blade

You'll like the heft of this stainless steel folding lockback knife from Gerber International. It comes with wood inlays plus the versatility of three blades that interchange in seconds. The Exchange Blade knife comes with a nylon belt scabbard featuring slots for the auxiliary blades.

Exchange Blade (#7521)
Includes: 3½" drop-point, 3½" trailing-point, and 3½" clip-point, all of unique high carbon surgical stainless steel. Overall length, 8½". Blade Thickness, .118".

Skeleton Knives

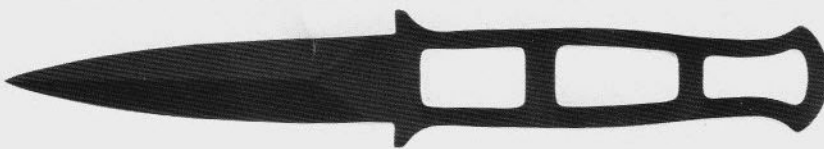

Here is a bare bones knife. . . make *no* bones about it! Gerber International gives you a blade that cuts the frills and gets the point accross. A blade with its own distinct personality! All knives are blacked and come with leather belt/boot scabbard.

Utility Camp & Fish Knife (#7501)
2" blade. Overall length, 6¼". Blade Thickness, .187".

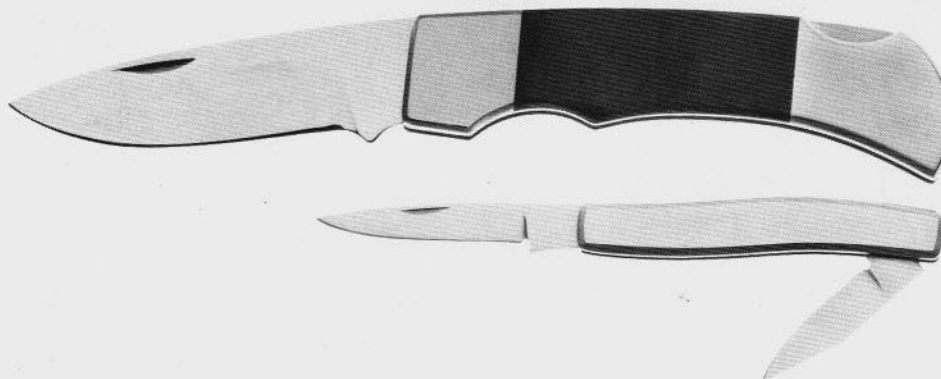

Hunting & Skinning Knife (#7502)
3" blade. Overall length, 7½". Blade Thickness, .187".

Double Edge Survival Blade (#7503)
3½" blade. Overall length, 7¾". Blade Thickness, .187".

New Folding Knives

Two outstanding knives from Gerber International.

Folding Knife (#7522)
Single 3½" drop-point blade of high carbon surgical stainless steel. Overall length, 8½". Blade Thickness .118". Complete with nylon belt scabbard.

Folding Pocket Knife (#7504) Solid stainless steel folding pocket knife. 2¼" drop-point, 1½" clip point. Blade Thickness, .90" and .60".

Sportsmen Showcases

These standing floor displays allow you to present Gerber Sportsmen's knives right up front, with outstanding impact. Available in a selection of either six or nine product display panels.

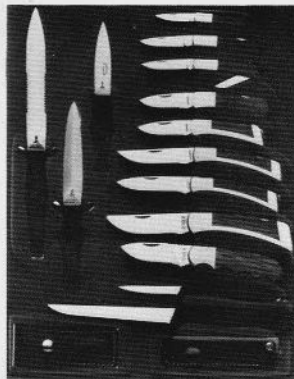

Locking display cabinet is constructed of wood and can be opened from the front as well as the back for storage. Finish is a walnut grained vinyl and has molded display panels.

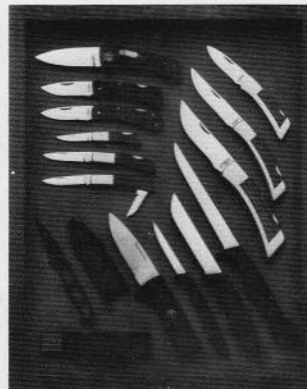

Six panel show case measures 55" high, 28½" wide and 23½" deep at the base. (Allow additional 2½" minimum clearance on width for lock and key). An attractive point-of-sale header board is included. **Nine panel** display measures 55" high, 42" wide and 23½" deep at base. (Allow additional 2½" minimum clearance on width for lock and key). An attractive point-of-sale header board is included. Select product display panels for showcases from page 20. (Panels w/knives billed separately.)

Sampler Displays

Specially designed for the smaller store to give a good representation of Gerber product in a compact display. Wood framed case for counter or wall (15" x 19") has molded display panel, glass face and comes with header board.

Why Gerber?

An important question when there are at least a hundred industry sources for knives.

First of all, there's our reputation for superior knives. No other company has better design, higher quality or a broader range of products than Gerber. We're one of the few companies to include a printed guarantee with every knife.

We consistently have pioneered exciting new products. Such as Balance Plus™, the most innovative development in kitchen cutlery this century. Balance Plus™ Knives feel great in the hand and work better than other knives due to very special features.

Gerber is also known for its exceptional wood products made in our own wood-working plant. Our walnut chests are the finest to be found.

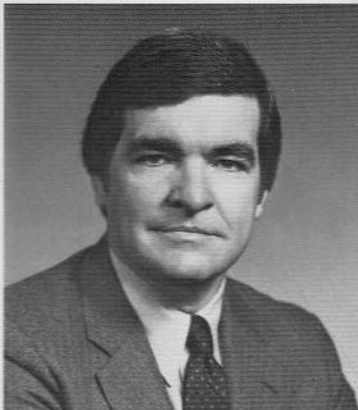

Now we offer cutting boards and an outstanding selection of knife blocks including the Super Maxi, the largest, most useable block on the market.

And of course, there's our outstanding Sportsman's line. Our survival knives have been imitated, but never matched. The Paul Knife is unique in all the world, made to exacting tolerances within 10,000th of an inch. And recently we've introduced many more new products, such as our Touche® Belt Buckle Knife, Bolt Action Folding Knife, Frisco Shiv™, and SharPak™, to name only a few.

Gerber is a recognized national brand name, synonymous with innovation and quality. Not surprisingly, after over 43 years we know the business! We understand retailing. And have a national sales force dedicated to service. Quite simply, we have the expertise to best assist you in developing the most appropriate merchandising program to expand your knife sales.

And of course, there's the national scope of our advertising! Our on-going campaign of print ads is designed and written with the kind of marketing know-how that motivates consumers to buy our knives. So is our uniquely inviting packaging. To quote a prominent retailer, "it's the best in the industry!"

Why Gerber? If I still haven't answered that question fully, try our knives, our company, our service. You'll see for yourself!

Jim Raske
James R. Raske,
President

Consumer Guarantee

We guarantee that Gerber products will be free from defects in material and workmanship under normal use and service. If you have a defective item, return it to the place of purchase or the nearest Gerber dealer for replacement. This guarantee does not cover damage caused by abuse or normal wear and tear.
