## EK COMMANDO KNIVES

Each EK Commando knife is made from battle proven HC51718 high-carbon stainless steel. Each blade is heat treated to 1650° F, then plunged to -120° F to create a combat worthy blade, Rc 57-59. Full tang construction, nothing to go wrong, one solid piece of steel from end to end. Thick brass guards, down-swept for comfort, increase thrusting power and help prevent jamming the thumb. The wavy waisted blade increases cutting and slashing ability. The extended butt feature provides a multitude of uses, such as a pry bar, or defensively, as a "skullcrusher" pommel. "Top notch" sheaths are designed with the military man and adventurer in mind, as they accommodate military pistol belts as well as regular belts. Factory razor-sharp edge "right out of the box".

Weight: 6.02  
Length incl. H: 12.10  
Blade thickness: .027

### EK S-F

The olive drab PARAGREP handle provides a comfortable, non-slip grip that can be quickly unwrapped to provide 18 feet of 550-lb tensile strength Mil Spec parachute cord for emergency lashing.
